27 January 2006

TO WHOM IT MAY CONCERN

We hereby confirm that Florin V Niculescu was employed by Hyder Consulting (UK) Ltd as follows:

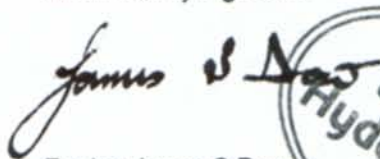

January 2004 to October 2004: HYDER Consulting (UK) Ltd – Bucharest, Romania
Senior Infrastructure Engineer/ Deputy Team Leader

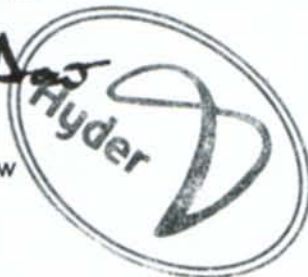

The work included training in public procurement and FIDIC for the local authorities and assessment of the Romanian public procurement rules against the relevant EC Directives. During the period, tasks also involved participation in a CBC Project (Romania – Hungary), within a multidisciplinary team aimed at reviewing tender documents (FIDIC '99 Contract Conditions) and carrying out the evaluation and contracting, which included advising the Client in the contract negotiations. Another major component of this assignment was the preparation of a multi-annual PHARE project fiche. To this end, extensive support was provided for the preparation of Guidelines for Grant Applicants and related annexes, including the co-ordination of two other experts and back-stopping for the Team Leader.

June 2003 to December 2003: HYDER Consulting (UK) Ltd – Guildford, UK
Senior Highways Engineer

Work involved assessment of alternatives of a new route for developing the existing A21 Trunk road, South of Pembury to Hastings, including preparation of proposed alignments, schemes costing and documentation preparation for public consultations. The work involved a high degree of emphasis on environment protection and mitigation measures. Also, schemes were prepared for a rapid widening of the London ringroad M25, including junction improvements and study of phased traffic conditions for improvement of the A13 - Albert Bridge in London. The schemes also contained "black-spots" and accident analysis, traffic safety assessments and preparation of corrective measures proposals.
